## References/IDS

This application is a continuation-in-part of U.S. patent application Ser. No. 10/376,657 filed February 28, 2003 entitled "Corn head row unit" which claimed the benefit of provisional patent application U.S. 60/364,813 filed March 15, 2002. Applicant previously submitted an Information Disclosure statement in support of the patents and prior art cited herein. According to 609 I. 2. of the Manual of Patent Examining Procedure, the examiner is to consider information which has been considered by the Office in a parent application when examining... *(C) a continuation-in-part application filed under 37 CFR 1.53(b). Such information need not be resubmitted in the continuing application unless the applicant desires the information to be printed on the patent.* In response to paragraph 1 of the examiner's office action, applicant requests the examiner review the submitted patent application in view of the IDS submitted in support of examination of the above mentioned patent applications.
